CITY OF
WILMINGTON
NORTH CAROLINA

DID YOU KNOW?

- More than 80% of all sales tax revenue in New Hanover County is generated within the City Limits. However, the City only receives about 20% of that revenue each year and has no control over how it is distributed.
- According to the current distribution formula, each time New Hanover County raises its property tax rate, the city's share of sales taxes decreases unless the city raises its tax rate.
- Wilmington's property tax rate is among the lowest of large NC cities.
- The only source of significant revenue the city can change is its property tax rate.
